ADDING NEW PATIENT

1. Click the add new patient button.

The screenshot shows the application interface with the 'Add New Patient' button highlighted by a red arrow. The interface includes a table of existing patients and a form for adding a new patient.

MRN	Name	Address	Contact #	Gender	Company	Date	Occupation

NOTES:

>A list of all directories present on the program's referenced directory would be listed on a drop down box. If a user is under a certain existing company, simply select his/her company. Else, you can manually input a new company name for the program to create a new directory for the said new company.

The screenshot shows a software interface for patient management. At the top, there are buttons: "Add New Patient", "Update Existing", "Delete Existing", "Print Records", "Open Folder", and "Cancel". A search query field is also present. The main area is a table with columns: MRN, Name, Address, Contact #, Gender, Company, Date, and Occupation. The table contains several rows of patient data. To the right of the table, there is a "Patient Information" form. A dropdown menu is open, showing a list of companies: "2017-04 Accenture", "2017-09-10 Bagong Company", "2017-12 Didis Pizza", "Accenture", "asgasgasgasgasgas", "Josh's Company", "sgasgas", "SGSGS", "Test", and "try". The "2017-09-10 Bagong Company" is highlighted. Below the dropdown, there are fields for "MRN No.", "Name*", "Home Address*", "Contact Number*", "Civil Status*", "Date*", "Month", "Day", "Year", "Birthday*", "Month", "Day", "Year", "Male", "Female", "Employment Record", "Company Name*", "Haha", "Contractual", and "PEME". There are also buttons for "Save Patient" and "Generate".

The screenshot shows the same software interface as the previous one. The table of patients is visible. The "Patient Information" form is also visible. The dropdown menu is open, showing a list of companies: "2017-04 Accenture", "2017-09-10 Bagong Company", "2017-12 Didis Pizza", "Accenture", "asgasgasgasgasgas", "Josh's Company", "sgasgas", "SGSGS", "Test", and "try". The "2017-09-10 Bagong Company" is highlighted. Below the dropdown, there are fields for "MRN No.", "Name*", "Home Address*", "Contact Number*", "Civil Status*", "Date*", "Month", "Day", "Year", "Birthday*", "Month", "Day", "Year", "Male", "Female", "Employment Record", "Company Name*", "Haha", "Contractual", and "PEME". There are also buttons for "Save Patient" and "Generate".

EDIT PATIENT/LAB RESULTS

1. After saving a new patient, you can now generate his/her laboratory results by clicking his/her entry on the table. (This can also be done on existing patients on the table.)

PRINTING PATIENT'S RECORDS

NOTE: This feature is only possible if the patient already has his/her laboratory results updated or inputted. This feature would also print ALL OF THE PATIENT'S EXISTING LABORATORY RECORDS. In any case that you would like to print his/her results one by one, please use the OPEN FOLDER functionality and manually print his/her record/s.

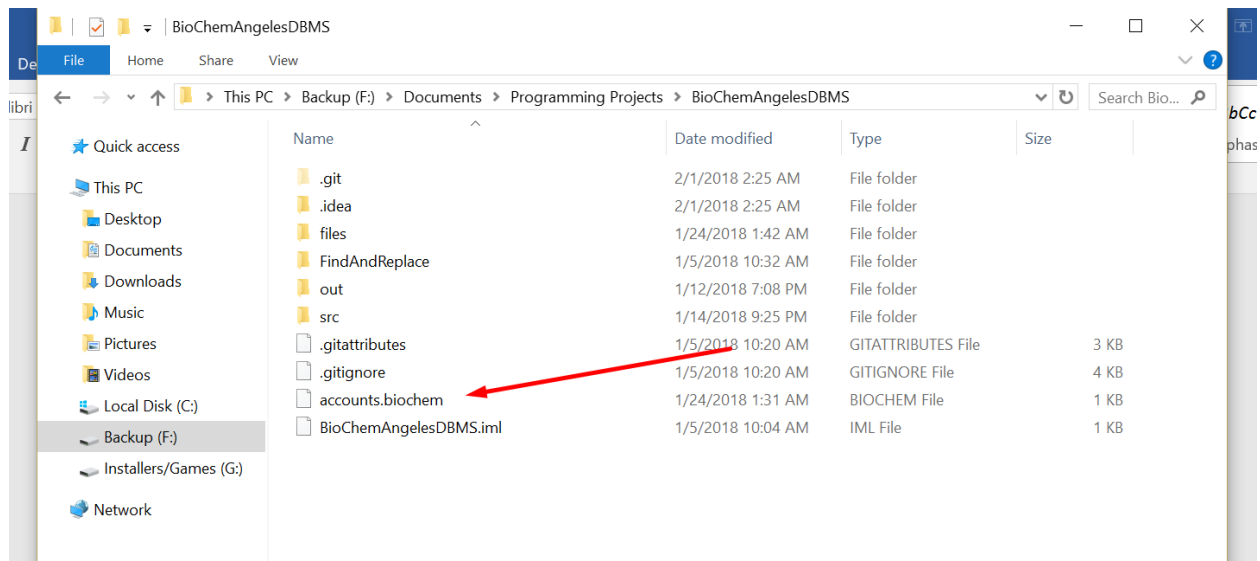

1. Select a patient from the table and click “Print Records”. A series of Microsoft word pop ups will appear. **DO NOT CANCEL EACH PROCESS UNTIL PRINTING IS DONE.**

The screenshot displays a patient management application interface. At the top, there are buttons for 'Add New Patient', 'Update Existing', 'Delete Existing', 'Print Records', and 'Open Folder'. A search query field is also present. Below these buttons is a table with columns: MRN, Name, Address, Contact #, Gender, Company, Date, and Occupation. The table contains several rows of patient data. A red arrow points to the 'Print Records' button. To the right of the table is a form for patient information, including fields for MRN No., Name, Home Address, Contact Number, Civil Status, Date, Birthday, and Gender. There are also sections for 'Medical Information' (Clinical Measurements, Family Health History), 'Laboratory Results' (Packages, Sanitary, Individual Tests), and 'Radiographic Results' (Chest PA, Impression). At the bottom of the application window, a status bar shows 'BioChem HealthCare Services | Dau Mabalacat, Pampanga | (045) 402 5809'. Below the application window, a Microsoft Word window is open, showing a 'Printing' dialog box with the message 'Now printing Page 1 Of 'Jimenez, 1-23-2018 Corporate' on the Canon G2000 series Printer'. The dialog box has a 'Cancel' button.

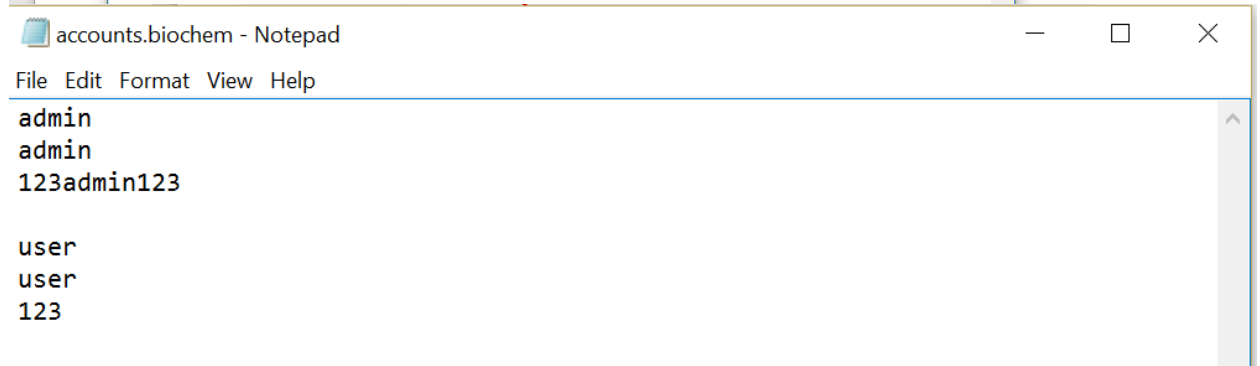

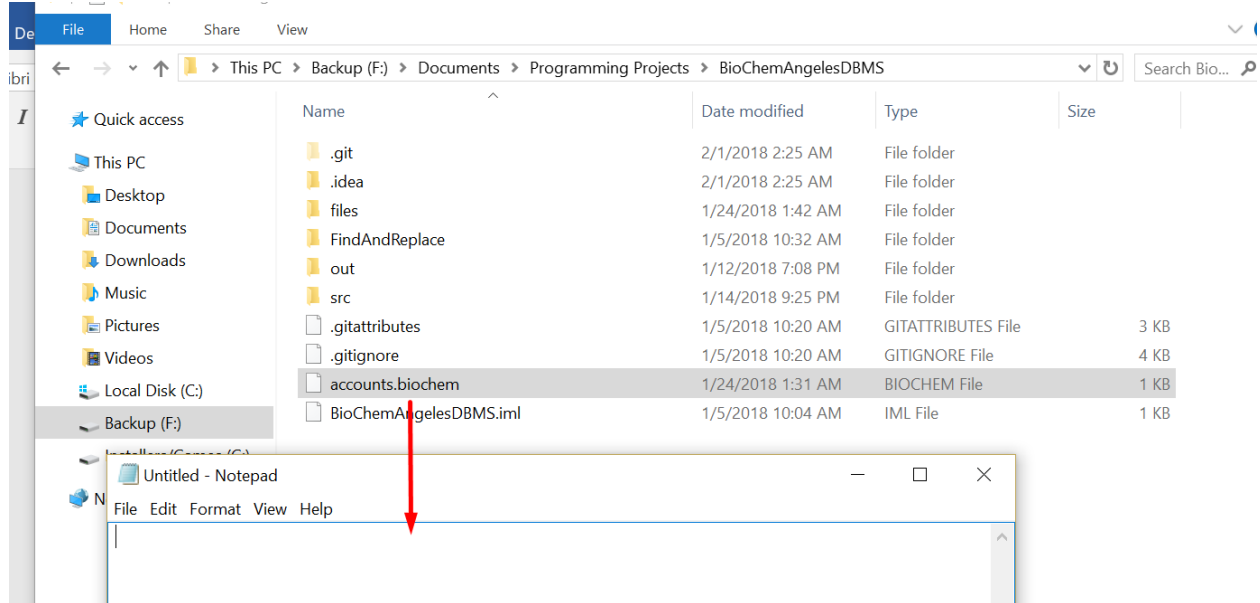

Note: A series of errors or prompts for saving the doc file may appear. **THIS IS COMPLETELY NORMAL, AND THE PROGRAM WILL STILL ISSUE A PRINT JOB QUEUE FOR ALL THE RECORDS.**

Updating User Accounts

1. Navigate to the BIOCHEM-DBMS folder structure and select “accounts.biochem”.

2. Drag the file to an open "notepad" process.

3. You can now edit the user's and admin's username. (line 2 and line 6) and password (line 3 and line 7). Save the file with "CTRL+S" to reflect the changes on the file.

IMPORTANT NOTES:

1. YOU CAN ALWAYS COPY AND PASTE YOUR EXISTING FOLDERS TO THE BIOCHEM-DBMS FOLDER. This would allow the program to read each directory and list them out within the dropdown list of company names. FOR THIS TO TAKE EFFECT, THE PROGRAM SHOULD BE RESTARTED. (EXIT AND RE-START THE APPLICATION)
2. You can always share the "files" folder of BIOCHEM-DBMS through the network to have multiple users accessing the "files" folder on a connected network.
3. Templates can be easily edited. Navigate to this directory to edit any template of choice:

1S > FindAndReplace > FindAndReplace > bin > Debug > templates
